

OPERON[®] SURGICAL TABLES ACCESSORIES

OPERON[®] Surgical tables accessories

For unmatched versatility and positioning, look to BERCHTOLD's B710 Surgical Table. Our 5-section modular design and 350 kg weight capacity ensures configurations for a wide variety of surgical specialities and patient sizes. The radiolucent phenolic tabletop provides superior imaging capabilities, easily accessed with a C-arm.

OZ 100- 11- 01 anaesthesia screen

including radial setting clamp; drape support with additional vertical adjustment via grip screw

OZ 100- 11- 21 elongation

for anaesthesia screen OZ 100- 11- 01, length approx. 560mm; free radial adjustment via grip screw (for large draping please order 2 pcs.)

OZ 100- 20- 01 infusion stand

including radial setting clamp; bottle support with additional vertical adjustment via grip screw, up to max. approx. 1150mm over OR table top

OZ 120- 18- 00 arm support

(without pad) including rapid release clamp; free up / down and radial adjustment capabilities via ball joint, additionally height adjustable for approx. 90mm; l x w approx. 600 x 180 mm

OZ 120- 18- 10 pad

for arm supports OZ 120- 18- 00 / OZ 120- 18- 50; flat shape, l x w x h approx. 600 x 180 x 30

OZ 120- 18- 20 pad

for arm supports OZ 120- 18- 00 / OZ 120- 18- 50; concave shaped, l x w x h approx. 600 x 180 x 60

OZ 120- 18- 30 restraint straps

(pair) for arm supports OZ 120- 18- 00 / OZ 120- 18- 50; fabric belt with Velcro fastener

OZ 120- 18- 50 arm support

(without pad) including rapid rod clamp; radial adjustment, additionally height adjustable for approx. 90mm; l x w approx. 600 x 180 mm

OZ 150- 17- 50 arm protection support
including rapid release clamp and pad; for fixing the patient's arm along the body, provides comfortable protection against the OR team standing laterally at the OR table; l x h approx. 300 x 140 mm

OZ 100- 10- 11 rapid fixing clamp

for accessories with vertical posts of up to 20mm Ø; clamp position and accessory are securely fixed simultaneously via grip screw

OZ 100- 10- 41 radial setting clamp

for accessories with vertical posts of up to 20mm Ø, as well as for rectangular / square profiles; fine tuned radial adjustments in 6° steps; clamp position and accessory are separately fixed each via grip screws

OZ 100- 10- 71 radial setting clamp

for accessories with vertical posts of up to 20mm Ø, as well as for rectangular / square profiles; fine tuned radial adjustments in 6° steps; clamp position, accessory and it's radial adjustment are securely fixed simultaneously via grip screws

OZ 100- 17- 00 fixing clamp

for hand and leg restraint straps
OZ 100- 17- 10 / OZ 100- 17- 30

OZ 100- 17- 10 wristlet strap

for easy fixation of the patient's wrist via the fixing clamp OZ 100- 17- 00; l approx. 600 mm

OZ 100- 17- 10 leg strap

OZ 100- 26- 50 fixing strap

for easy fixation of the patient's thighs via two fixing clamps OZ 100- 17- 00; l approx. 1000 mm

OZ 150- 26- 50 body restraint strap

for fixation via the OR table's side rail; fabric belt with Velcro fastener, additionally with wide padding; l approx. 900 mm

OZ 100- 16- 50 lateral support

wide model, w x h approx. 210 x 210 mm; fixation via rapid fixing clamp OZ 100- 10- 11

OZ 100- 16- 90 support roll

horizontal; for multiple application purpose, e.g. as buttocks support or as humerus support for orthopaedic interventions in prone patient positioning, \varnothing x l approx. 110 x 280 mm; fixation via rapid fixing clamp OZ 100- 1 0- 11

OZ 100- 15- 00 shoulder supports

fabric belt with Velcro fastener; total length approx. 2100 mm

OZ 100- 16- 00 lateral support

narrow model, w x h approx. 90 x 210 mm; fixation via rapid fixing clamp OZ 100- 10- 11

OZ 100- 16- 80 support roll

especially applicable for lateral patient positioning, \varnothing x h approx. 110 x 280 mm; fixation via rapid fixing clamp OZ 100- 10- 11

OZ 120- 29- 50 foot supports

pair, w x h approx. 200 x 250 mm each; fixation via two rapid fixing clamps OZ 100- 10- 11

OZ 100- 25- 00 knee crutches

pair; horizontally, vertically and in inclination adjustable; fixation via two rapid fixing clamps
OZ 100- 10- 11

OZ 100- 25- 20 knee crutches

pair; for knee crutches OZ 100- 25- 00 and OZ 100- 25- 70; padded with Velcro fasteners

pair; free adjustment of the leg support via ball joint; fixation via two radial setting clamps OZ 100- 10- 41 or OZ 100- 10- 71

OZ 100- 25- 70 self adjusting leg supports

pair; because of single-hand adjustment comfortable set up for lithotomy positioning, leg supports with additional fine adjustment abilities; adaptation on the side rails of the OR table via integrated clamps

OZ 150- 26- 00 TUR drainage bowl

entirely CrNi- steel; includes two strain inlets and drain hose; for OR table OPERON® B 710 in conjunction with TUR module OZ 160- 50- 04

OZ 160- 50- 04 TUR- module

for OR table OPERON® B 710; for urological application purpose; length 400 mm, with perineal cut out; additional guide rails for insertion of the drainage bowl OZ 150- 26- 00

OZ 751- 02- 75 foot control

for OR table OPERON® B 710; three table top control functions for height, lateral tilt and

OZ 100- 13- 30 head ring

for stabilising the patient's head; Ø 200 mm

Trendelenburg

OZ 160- 25- 00 Adapter

for OR table OPERON® B 710; three table top control functions for height, lateral tilt and Trendelenburg

OZ 100- 13- 52 wrist support

for head rest OZ 100- 13- 51

OZ 120- 50- 00 accessory stand

mobile; 3 storage baskets, one tray, 6 side rail pieces and two sleeves for storing a pair of knee crutches; l x w x h approx. 565 x 500 x 1465 mm

OZ 100- 13- 51 horse shoe shaped head rest

for all interventions in the head area; width adaptable via split head support, additional semi circular pad for sufficient support of the patient's neck; head support freely adjustable via ball joint, additionally separate height adjustable; for OR table OPERON® B 710 in conjunction with adapter OZ 160- 25- 00

OZ 160- 27- 00 X-ray cassette slide

compatible to OPERON® B 710; inside dimensions 463 x 383 mm; with telescope-push bar

OZ 110- 15- 01 instrument table

tray size 700 x 500 mm; height adjustment range 925 - 1310 mm

OZ 100- 19- 00 hand operating table

height adjustable, radiotranslucent, including pad; safe adaptation to the OR table via two rapid release clamps; max. dimensions of table top l x w 800 x 520 mm, centre part w = 300 mm

OZ 100- 28- 50 laminectomy frame

for interventions at the vertebral column; to be put onto the OR table top, incl. pair of pads; bulging height max. 200 mm (above OR table top), bilateral adjustment abilities via hand crank; dimensions of the a-p X-ray scannable abdominal cut out approx. 520 x 370 mm

OZ 100- 33- 00 knee support

incl. pad roll, l x Ø approx. 340 x 110 mm; fixation via rapid fixing clamp OZ 100- 10- 11, alternatively via radial setting clamp OZ 100- 10- 41 or OZ 100- 10- 71

OZ 100- 25- 30 knee arthroscopy support

width adaptable up to max. 330 mm via hand crank; pad dimensions h x w approx. 220 x 90 mm; fixation via radial setting clamp OZ 100- 10- 41

OZ 160- 40- 04 extension unit

for orthopaedics / traumatology in conjunction with OR table OPERON® B 710, complete for all interventions at the lower extremities under traction, incl. storage cart

OZ 150- 41- 00 leg plates

pair, for extension units; attachable for completing the OR table top for the anaesthesia induction phase with supine patient positioning

OZ 150- 43- 00 traction stirrup clamp

for extension units; for adaptation of traction stirrup devices for traction application via traction wire or Steinmann- nail; free adjustment in rotation and additional set screws for fine adjustment of the traction stirrup

OZ 160- 52- 04 back plate module, short

for OR table OPERON® B 710; length 200 mm; for

elongating / shortening the OR table top

OZ 150- 42- 00 leg support

for extension units; for positioning the patient's unaffected leg by means of the extension accessories; adjustable height and horizontal position, support pad additionally with free adjustment via ball joint

OZ 120- 33- 50 knee crutch

single piece; for extension units for positioning the patient's unaffected leg

OZ 160- 53- 04 back plate module for shoulder interventions

for OR table OPERON® B 710; consisting from four

sectional back plate module and multiple adjustable,

helmet shaped head rest; two lateral detachable - also with already positioned patient - shoulder segments and approx. 120 mm longitudinal adjustment in the central segment; head rest with ball joint adjustment and additional positioning abilities in longitudinal and lateral direction

OZ 160- 51- 04 split leg plates, pair

for OR table OPERON® B 710; with adjustment in lateral straddling, either in single- or double joint pivoting via two joints each with grip screw locking; additionally manual, gas spring supported inclination adjustment for 70° (alternatively via powered joint of the OR table top)

OZ 160- 54- 00 transfer board, extremely light weight

for OR table OPERON® B 710; single part, for positioning the patient's legs; pad support plate consisting of a special, extremely light weight composite plastic material; application particularly for gynaecology / urology for comfortable, frequent changes between flat, supine and lithotomy patient positioning

OZ 160- 00- 04 (replacement) set of pads

for OR table OPERON® B 710; 5 segments; 60mm thick, soft foam core segments with multi- layer structure; modelling characteristics positively influencing in regard to prophylaxis against decubital ulcers; attachment by means of Velcro strips; radiotranslucent and electrical conductive
