

seca 856

Diaper scales with stainless steel cover

The seca 856 has been especially designed to meet the requirements of its area of application. The raised display protects against soiling by fluids and the specially sealed battery compartment protects reliably against the electronics becoming damp. T

he scale also perfectly meets the demands on hygiene: the robust, sealed stainless steel surface is easy to clean.

With the aid of the pre-TARE function, the additional weight of containers can be simply deducted ensuring the precise determination of the net weight. The fine 1 g graduation ensures highly precise results.

Capacity	11.000 oz / 5,000 g
Graduation	0.05 oz < 6.6 lbs > 0.1 oz 1 g < 3,000 g > 2 g
Dimensions/platform (WxHxD)	266 x 55 x 266mm
Weight	1.2kg
Power supply	Batteries
Warranty	2 years
